Nurses UK News!

Keeping you up to date with all the latest company news for all our Nurses and Clients.

Whats is happening this month?

## Nurses - Whats in the News – May 2025

### **International Nurses Day Celebrated Nationwide**

On 12 May, the UK marked International Nurses Day by honoring over 778,000 registered nurses. The Nursing and Midwifery Council (NMC) welcomed the government's move to legally protect the title "nurse," ensuring only those on the official register can use it. The NMC also reaffirmed its commitment to cultural transformation within the profession.

### **Updated Nursing Workforce Standards Introduced**

The RCN has updated its Nursing Workforce Standards to enhance staff protection. Key changes include better support for senior nurses who raise concerns, clearer staffing uplift figures, and improved planning for future pandemics.

### **NHS Pay Awards Spark Mixed Reactions**

The UK government has announced a 3.6% pay increase for nurses and other NHS staff in England and Wales, backdated to 1 April 2025. This follows recommendations from the NHS Pay Review Body. While the increase slightly surpasses the April inflation rate of 3.5%, the Royal College of Nursing (RCN) criticized the award as insufficient, highlighting that it doesn't address the 25% real-terms pay erosion since 2010 and may lead to further industrial action.

## News for Nurses UK Franchising...

We're thrilled to announce that Nurses UK has secured our very first franchisee — a huge milestone for our growing family!

But that's not all...

Franchise number two is already on the way and will be opening this September in Orpington!

*May 2025*

Finally, we are excited to announce, The Nurses UK Wellness Programme.

## Why join the Nurses UK Wellness Programme:

### 1. Prevents Burnout and Compassion Fatigue

Healthcare roles often involve long hours, emotional intensity, and high-pressure environments. Without attention to wellness, staff are at risk of:

Burnout (emotional exhaustion, depersonalization)

Compassion fatigue (emotional residue from caring for others)

### 2. Supports Mental Health

Healthcare workers frequently encounter trauma, suffering, and loss.

Promoting wellness helps manage stress, anxiety, and depression, ensuring staff remain emotionally resilient and mentally healthy.

### 3. Improves Patient Care

Wellness directly affects performance. A well-rested, mentally healthy nurse or caregiver is:

More alert

More compassionate

Less prone to errors

Patient outcomes and satisfaction are directly linked to caregiver wellbeing.

## Training Days:

This month training day in Monday 16th June for the mandatory free updated training and we also have Tues 24th June Practical Training Day!
